

IL SERD (Servizio per le Dipendenze)

SERD (Addiction Service)

SERD (Addiction Service) is a local service dealing with prevention, treatment and rehabilitation of people of all ages who are addicted to psychotropic substances (illegal drugs like heroin, cocaine, amphetamine, hashish, marijuana, etc., legal drugs like alcohol, nicotine, psychiatric drugs etc.) or suffer from behavioural addictions like pathological gambling, compulsive shopping, extreme risk taking behaviour, Internet addiction. A group of professionals (doctor, nurse, social worker, psychologist, professional educator) work together to understand and help the people who access the service and to recommend them specific programmes according to their needs. You can come to SER.D. by appointment or not.

SER.D. offers free care according to your needs or the needs of addicted relatives and friends, safeguarding everyone's privacy and anonymity:

- Listening and care
- Specialized medical, psychological and social consultations
- Treatment in clinics and at home
- Rehabilitation programmes involving individual and/or family meetings, work and social reintegration programmes, local self and mutual help groups (Under Treatment Alcoholics, Alcoholics Anonymous, Narcotics Anonymous, former gamblers associations - "MIRIMETTO IN GIOCO" project)

Linguistic and Cultural Mediation is available within the health services.

PROGETTO SAMEDI

II DSM (Dipartimento Salute Mentale)

Mental Health

Mental Health clinics deal with people's psychological wellbeing. SMIA (Child and Adolescent Mental Health Services) are clinics for children and kids up to 18 years of age. SMA (Adult Mental Health Services) are clinics for people aged over 18. In case of stress or huge worries that cause headache, pain, sleep loss or severe anxiety, you can come to these clinics. A group of professionals (doctor, nurse, social worker, psychologist, professional educator) work together to understand and help the people who access the service and their families. The Mental Health Service cooperates with other local services to support patients and their families in safeguarding their health and other fields of their lives: social life, work reintegration, training programmes. You can access these clinics for free or at low-cost fees. You can come by appointment or not, in case of emergencies.

Linguistic and Cultural Mediation is available within the health services.
